Subject: Calbag/MDEQ WMP Discussion - Monday, July 18
Attachments: removed.txt; Summary of WMP Concrete Information and Questions for EPA.docx; 01 - WMP_CFAC_Planschedule_ApprovalLtr_062416.pdf

Hi Mike,

During the last CFAC project conference call we discussed having a call between CFAC, Roux and EPA to talk about the approval of the Calbag WMP. We originally planned for the call to happen right after the CFAC project call planned for Monday the 18th. However, due to some scheduling conflicts, we were hoping we could push back the call to later in the day. Are you available at 6pm EST, 4pm MT on Monday, July 18th?

In advance of the call, Roux has prepared a summary of the key points from the Calbag WMP (see attached). We think this summary will help guide the discussion. We have also prepared a list of questions that we think are important to help facilitate the process.

For your reference, I've also attached the approval letter that Calbag received from MDEQ. Please note Comment #5, which mentions coordination with EPA.
